

Cronquis[®]

THE BEST VARIETY AND FLAVOR IN SNACKS

from Ecuador - South America

About us

Grupo Oro is a company with more than 25 years of experience in the Ecuadorian market. Our production processes backed by the certification of Good Manufacturing Practices, allow us to offer our customers high quality products that meet the demands and expectations of local and foreign market.

We started with egg production which, thanks to the efforts of a great work team, became one of our main lines of business by being recognized for its unique flavor. Later we ventured in poultry production. A slow but steady growth, taking care of details and with a vision of the future, is what allowed us to venture into pork industry 10 years ago, and diversify into other lines of business such as: cattle, sausages, snacks and gourmet chocolate “fino de aroma”. The latter is intended for the North American and European markets, and has received many worldwide awards for its excellent quality.

Based on the successful experience obtained by the exportation of our line of chocolate, and the guarantee that our permanent focus on quality ensures safe products that meet the requirements of the most demanding customers; we are entering new markets with our line of Snacks: chips, white carrots, sweet potatoes, etc. our own products from Ecuador of exotic flavors!
